
License Model Schedule

Additional License Authorizations (ALA)

For Functional Testing Software products

This Additional License Authorizations document (“ALA”) sets forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the applicable agreement (i.e., Micro Focus End User License Agreement; and/or any separate agreement that grants Licensee a license to such products ; and/or Quotation) (the “Applicable Agreement”). Capitalized terms used but not defined herein shall have the meanings set forth in the Applicable Agreement. All products below are delivered electronically, unless otherwise agreed, and as such, any inconsistent terms that are stated on a purchase order or any other document issued by Customer, are void.

Products and Suites covered

Products	Non-production software class*	Subscription or Term License Non-production use category (if available)
Business Process Testing	Class 1	Class 3
Functional Testing (legacy)	Class 1	Class 3
Quick Test Professional Essentials	Class 1	Class 3
Service Test	Class 1	Class 3
OpenText™ Functional Testing for Developers (UFT Developer)	Class 1	Class 3
OpenText™ Functional Testing (UFT One)	Class 1	Class 3
UFT Ultimate Edition	Class 1	Class 3

Suites	Non-production software class*	Subscription or Term License Non-production use category (if available)
OpenText™ Functional Testing Lab for Mobile and Web Express (UFT Digital Lab Express Edition)	Class 3 **	Class 3
OpenText™ Functional Testing Lab for Mobile and Web Professional (UFT Digital Lab Pro Edition version 2)	Class 1	Class 3
OpenText™ Functional Testing Lab for Mobile and Web Premium (UFT Digital Lab Enterprise Edition)	Class 1	Class 3
OpenText™ Functional Testing Lab for Mobile and Web Ultimate (UFT Digital Lab Ultimate Edition)	Class 1	Class 3
Synthetic Mobile Monitoring Suite	Class 1	Class 3

*Additional licenses solely for non-production use may be available as specified in the Non-Production Licensing Guide found at opentext.com/about/legal/software-licensing depending on the non-production software class specified above. Any such non-production licenses will be subject to the Non-Production Licensing Guide and the applicable License Option terms and conditions set forth in this ALA.

**Network Virtualization component is non-production Class 1, OpenText™ Functional Testing Lab for Mobile and Web is Class 3.

Definitions

Term	Definition
Application Under Test or AUT	Means a software application being tested by software.
Concurrent Access	Means simultaneous use of one Device at any point in time.
Concurrent Flow	Means the number of individual, simultaneous flows that can be run at any point in time. Flow represents the bi-directional communication between specified source and target in which a single network condition is applied (source and target can be the local machine, a remote host or a range of hosts).
Device	Means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
Instance	Means each implementation of the application installed on a server.
LTU	Means License To Use.
Mobile Device	Means a Device running an operating system designed for mobile devices such as but not limited to mobile phones, tablet computers and smart phones that typically connect to a network by means of Wi-Fi or cellular data.
Node Locked Instance	Means an Instance which can only be used with a specific node.
Remote Access	Means the act of accessing a computer over the network from an originating location remotely removed from the Site or the location of the computer being accessed or controlled.
Robotic Process Automation	Means an application that simulates attended or unattended human actions through the execution of automated tasks.
SaaS	Means Software as a Service which is a service which allows access to the software, support and related professional services, as described in an order document, datasheet or a Statement of Work (SOW).
Suite	Means two or more software products combined into a single license offering or a single software product which includes two or more licenses. The specific software products included in a Suite are specified in the software specific license terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product, except where specified in the specific Suite software specific license terms below.
Term License to Use or Term LTU	Means a subscription to software with a license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTU's are not perpetual licenses.
Third Party Location	Means a location leased or owned by the Third Party.
Third Party Use	Means as authorized in the Software Specific License Terms, you may permit a Third Party to access and use the software on your behalf for the sole purpose of providing services to you, provided that; (i) If you have a Site License then a Third Party may use the software only at your site; and (ii) for geographically restricted licenses you have purchased the required Area or Global license for use at Third Party's Location; and (iii) you designate the Third Party as your designated personnel for the purpose of receiving Micro Focus support and maintenance services; and (iv) you are responsible and directly liable to Micro Focus for the use of the software by the Third Party. Third Party may not use the software for their own internal business purposes, nor permit any other third party to access the software; and (v) you shall provide written notice to Micro Focus of the Third Party's name and the address of Third Party's Location; and (vi) Upon the termination or expiration of Third Party's services to you, you shall promptly instruct the Third Party to remove and return all software in its possession to you and you shall promptly notify Micro Focus of such termination or expiration.

Additional License Authorizations

For Functional Testing Software products

Term	Definition
Transaction	Means a series of distinct actions relevant for monitoring an IT service or process. It is represented and stored in software as a single, unique measuring capability for a stated Key Performance Indicator (KPI).
Unlimited	Means without restrictions in terms of number of systems, devices or media, depending on the context.
Use	Means to install, store, load, execute and display one copy of the software.

License Options

The following License Options are the types of licenses available for a given software product as further specified in this ALA. The applicable License Option for a license shall be as set forth in the Applicable Agreement or Product Order. Those products with only one License Option available shall be governed by such License Option whether or not stated in the Applicable Agreement or Product Order unless otherwise agreed in writing between Licensee and Licensor.

Concurrent or Concurrent User License

Licensed Software provided under this License Option gives Licensee the right to install the Licensed Software on multiple Devices and simultaneously use the Licensed Software at any one point in time provided that the actual usage of the Licensed Software does not exceed the number of licenses purchased.

Seat or Seat User License

Licensed Software provided under this License Option gives Licensee the right to install and use the Licensed Software on a single Device.

Site, Area and Global License

- **Site License** - Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software at an address (e.g., room number, department number, building number, street address, campus etc.) or a group of addresses specified in the Applicable Agreement. Site cannot include multiple addresses or addresses in multiple countries or states. Site licenses cannot be moved to an alternate Site after the original purchase without paying to Micro Focus a geographic relocation fee. If no Site address is explicitly specified in the Applicable Agreement, then the Site address will be the Ship To address specified on the quotation.
- **Area License** - Licensed Software provided under this License Option gives Licensee the right to used the Licensed Software in a single region, defined as the Americas (North, Central and South America and Mexico) or EMEA (Europe, Middle East and Africa) or JAPAC (Japan, Asia, Pacific Rim and Australia); Area cannot be global or multiple regions. Area is determined where the order for the license is placed, unless the Applicable Supporting Material indicates otherwise. Area licenses cannot be moved to an alternate Area from where the original order was placed, without paying to Micro Focus a geographic relocation fee.
- **Global License** - Licensed Software provided under this License Option gives Licensee the right to use the Licensed Software worldwide.

Software Specific License Terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

Business Process Testing

The following License Options apply: Site Concurrent User, Area Concurrent User or Global Concurrent User.

Remote Access is permitted where users are regularly employed at the Site or Area. Remote Access by users located outside of the Area requires a Global license. This software requires an OpenText™ Application Quality Management Enterprise License for both manual and automated testing. In addition, for automated testing a Functional Testing (legacy) license or an OpenText™ Functional Testing license is required. This software shall be used only in accordance with the Site, Area or Global license that corresponds with the OpenText™ Application Quality Management Enterprise license. Third Party access and use at the Third Party Location is permitted in accordance with the Third Party Use. Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus software licensed for load testing or functional testing purposes may be used only for the testing (load or functional) function originally licensed. Use of the functional testing tools (Business Process Testing) in production where you are utilizing Robotic Process Automation is permitted. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it was not originally licensed.

Functional Testing (legacy)

The following License Options apply: Seat, Seat User, Site Concurrent User, Area Concurrent User or Global Concurrent User.

Functional Testing is licensed for testing purposes only.

Remote Access is permitted where users are regularly employed at the Site or Area. Remote Access by users located outside of the Area requires a Global license. The AUT and the licensed software must reside at the same Site or Area as applicable. Third Party access and use at the Third Party Location is permitted in accordance with Third Party Use. Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus software licensed for load testing or functional testing purposes may be used only for the testing (load or functional) function originally licensed. Use of the functional testing tools (Functional Testing (legacy)) in production where you are utilizing Robotic Process Automation is permitted. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it was not originally licensed.

Quick Test Professional Essentials

The following License Options apply: Seat User or Concurrent User.

Quick Test Professional Essentials is licensed for testing purposes only.

When licensed by Seat User, the following applies: Remote Access, the act of accessing a computer over the network from an originating location remotely removed from the Site location of the computer being accessed or controlled, is only permitted where users are regularly employed at the Site and the AUT and the licensed software must reside at the same Site. Third Party access and use at the Third Party Location is permitted in accordance with Third Party Use. Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus software is licensed for load testing or functional testing purposes only and may be used only for the testing (load or functional) function originally licensed. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it was not originally licensed.

Service Test

The following License Options apply: Seat, Seat User, Site Concurrent User, Area Concurrent User or Global Concurrent User.

Service Test is licensed for testing purposes only.

When Service Test is licensed by Site Concurrent User, Area Concurrent User or Global Concurrent User the following applies:

a) The AUT and licensed software must reside at the same Site or Area as applicable. b) Remote Access is permitted where users are regularly employed at the Site or Area. c) Remote Access by users located outside of the Area requires a Global license. d) Third Party access and use at the Third Party Location is permitted in accordance with Third Party Use.

Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it is was not originally licensed.

UFT Aviator Add-On

The following License Options apply: Concurrent User.

This license may only be used with the following products:

- OpenText Functional Testing (UFT One)

UFT Aviator Add-On enables Customer to connect the Licensed Software to AI Technology capabilities through compatible Customer provided Large Language Model (LLM). For LLM compatibility see product documentation.

Micro Focus does not install, deploy, or manage the LLM component that is required to use UFT Aviator Add-On. Customer is solely responsible for installing, configuring, deploying, updating and paying any additional fees (if required) for its own LLM. Support is not provided for Customer's LLM.

Usage of this add-on is subject to certain system requirements and prerequisites, detailed in the product documentation.

Before purchasing the UFT Aviator Add-On, Customer must conduct a POC to ensure that Customer's LLM can be properly integrated.

To enable AI Technology capabilities within OpenText Functional Testing, Customer must have UFT Aviator Add-On in addition to a UFT Product Concurrent license.

Artificial Intelligence Technology

The Licensed Software may include and/or enable the use by Customer of generative and/or agentic artificial intelligence features and/or components ("AI Technology"). AI Technology consist of emerging technologies, and, due to the nature of such technologies, their use may produce Output that is incorrect, biased, unfair, inaccurate, incomplete, misleading, or otherwise unreliable. "Output" means any content, results, or actions generated or produced by the AI Technology based on data or instructions provided to it, including Customer's data. Use of AI Technology does not replace decision-making and judgement by natural individuals. Reliance on the AI Technology and its Output is at the Customer's sole discretion. Micro Focus's indemnification obligations, to the extent provided in the EULA, shall not apply to the Output.

The Customer shall determine:

- i. the selection, configuration, authorization, and administration of all access, permissions, and connectivity between the AI Technology and the Customer's systems and data; and
- ii. the level of judgment, oversight, and monitoring applied when using the AI Technology in production, including the instructions provided to it and any measures taken to prevent or mitigate potential harm.

Additional License Authorizations

For Functional Testing Software products

AI Technology provided by Micro Focus as part of the Licensed Software may include third-party artificial intelligence models and/or systems (“Third-Party Components”) integrated by Micro Focus that may require Customer to accept additional terms. Micro Focus makes no commitment to any specific AI Technology and may add, remove, suspend, replace, or limit AI Technology at its discretion, including where its use becomes prohibited, unavailable, or inconsistent with third party requirements.

Where the Licensed Software enable Customer to connect to Third Party Components selected and controlled by Customer, all legal rights and remedies relating to use of the Third-Party Components are governed exclusively by the terms of a separate agreement between the third-party provider and the Customer. Micro Focus does not provide such Third-Party Components, and its role is limited to enabling the technical integration, orchestration, and interoperability of such Third-Party Components within the Licensed Software. Customer is solely responsible for its use of the Third-Party Components and for any Outputs generated, including where such Outputs are automatically processed by the Licensed Software.

Each Party shall comply with applicable laws relevant to its role in the development, provision, deployment, or use of the AI Technology, including the EU Artificial Intelligence Act where applicable. The AI Technology’s intended purpose excludes any high-risk use (as defined in EU AI Act or per industry standards). The Customer shall not use the AI Technology outside this intended purpose. Unacceptable risk use (as defined in EU AI Act or per industry standards) is prohibited

macOS Cloud Browser Testing Add-On

The following License Options apply: Concurrent User

This license may only be used with the following products:

- OpenText™ Functional Testing Lab for Mobile and Web Professional (UFT Digital Lab Pro Edition version 2)
- OpenText™ Functional Testing Lab for Mobile and Web Premium (UFT Digital Lab Enterprise Edition)
- OpenText™ Functional Testing Lab for Mobile and Web Ultimate (UFT Digital Lab Ultimate Edition)

macOS Cloud Browser Testing Add-On enables Customer to securely access and execute automated or manual tests on real macOS machines hosted in the OpenText cloud.

Customer can run tests concurrently based on the number of purchased licenses.

OpenText™ Functional Testing (UFT One, Unified Functional Testing Enterprise Edition), OpenText™ Functional Testing for Developers (UFT Developer, Unified Functional Testing Pro Edition) and UFT Ultimate Edition (Unified Functional Testing Ultimate Edition)

The following License Options apply: Seat User or Concurrent User.

When licensed by Seat User, the following applies: Remote Access is permitted where users are regularly employed at the Site and the AUT and the licensed software must reside at the same Site. UFT Ultimate Edition is licensed by Concurrent User. OpenText™ Functional Testing, OpenText™ Functional Testing for Developers, and UFT Ultimate Edition software is licensed for functional testing purposes only. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it is was not originally licensed.

OpenText™ Functional Testing for Developers licenses grant access to the previous Unified Functional Testing Pro solution, which differs from the OpenText™ Functional Testing solution in many aspects, for example the scripting language, working environment, tools set, ease of use and more.

Additional License Authorizations

For Functional Testing Software products

OpenText™ Functional Testing licenses grant rights to use either OpenText™ Functional Testing for Developers or OpenText™ Functional Testing, so as long as they are not activated simultaneously; the same license can operate both products. This license is equal to the previous Unified Functional Testing license that was sold prior to version 14.00.

UFT Ultimate Edition is a bundle of products that includes everything OpenText™ Functional Testing provides as well as entitlement to one Business Process Testing Global Concurrent User and one limited OpenText™ Functional Testing Lab for Mobile and Web license which provides 1 Concurrent Access for 1 Mobile Device for the functional testing tools (Functional Testing (legacy), Unified Functional Testing, or OpenText™ Functional Testing) only. In order to take advantage of the Business Process Testing license in this bundle, the customer must have an OpenText™ Application Quality Management Enterprise license.

Third Party access and use at the Third Party Location is permitted in accordance with Third Party Use. Third Party Use at the Third Party Location requires a license. Micro Focus software licensed for load testing or functional testing purposes may be used only for the testing (load or functional) function originally licensed. Use of the functional testing tools (OpenText™ Functional Testing, UFT Ultimate Edition, and OpenText™ Functional Testing for Developers) in production where you are utilizing Robotic Process Automation is permitted. Micro Focus is not liable for any consequences and or damages resulting from Use of the software to perform functions for which it is was not originally licensed.

Functional testing Suite offerings

Suite	Offering includes	Additional terms (if any)
OpenText™ Functional Testing Lab for Mobile and Web Express (UFT Digital Lab Express Edition)	1 Concurrent Access for 1 Mobile Device 1 Service Virtualization Virtual Service - Web, Mobile and IoT	
OpenText™ Functional Testing Lab for Mobile and Web Professional (UFT Digital lab Pro Edition version 2)	4 Concurrent Access for 4 Mobile Devices 1 Network Virtualization Node Locked Instance with 2 Concurrent Flows 1 OpenText™ Functional Testing Concurrent User 4 Service Virtualization Virtual Services - Web, Mobile and IoT	
OpenText™ Functional Testing Lab for Mobile and Web Premium (UFT Digital Lab Enterprise Edition)	30 Concurrent Access for 30 Mobile Devices 1 Network Virtualization Node Locked Instance with 30 Concurrent Flows 1 OpenText™ Functional Testing Concurrent User	
OpenText™ Functional Testing Lab for Mobile and Web Ultimate (UFT Digital lab Ultimate Edition)	- Unlimited Concurrent Access for Unlimited Mobile Devices 1 Network Virtualization Node Locked Instance with 100 Concurrent Flows 1 OpenText™ Functional Testing Concurrent User	

Additional License Authorizations

For Functional Testing Software products

Suite	Offering includes	Additional terms (if any)
Synthetic Mobile Monitoring Suite	▪ 25 Business Process Monitor Ultimate Edition Transaction ▪ 1 OpenText™ Functional Testing Lab for Mobile and Web Pro Edition version 2	▪ Each Transition license includes: • Service Level Management for Business Process Monitor and limited Service Health Analyzer for Business Process Monitor. • Limited Service Health Analyzer for Business Process Monitor provides access to Service Health Analyzer functionality for Business Process Monitor data only ▪ Includes: • 4 Concurrent Access for 4 Mobile Devices • 1 Network Virtualization Node Locked Instance with 2 Concurrent Flows • 1 OpenText™ Functional Testing Concurrent User • 4 Service Virtualization Virtual Services - Web, Mobile and IoT

Additional License Terms

Term	
A.	Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
B.	You shall install and use the software as authorized in the Applicable Agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Documentation or the Applicable Agreement.
C.	To the extent this restriction is not prohibited under applicable law, you shall not disclose to any third party the results of (i) any performance benchmarks you run on software products themselves, or any portion thereof, or (ii) specific detailed comparisons you make between software products, or any portion thereof, and any of your or third-party product, in each case under (i) and (ii) without the prior written consent of Micro Focus.
